

Board Builder Basics

horry.discoveryeducation.com

- ◆ Start New Board - give it a title and description so others can find it and use it.
- ◆ You can choose a premade template or make your own.
- ◆ Add a heading.
- ◆ Add your media box to import pictures and videos
- ◆ Add your text box for text

Sketchpad Basics

After you have completed your sketch:

- ◆ Make sure you have saved it.
- ◆ Add your name.
- ◆ Add a Title. It could just be "Reflection"
- ◆ Make sure you have some color.
 - ⇒ To give your lines and points color just highlight the items you want to color then go to *display/color*
 - ⇒ To color background go to *edit/preferences/color*
 - ⇒ To color shapes highlight the points only in the order to make the shape then use *construct* then *polygon interior*.

Screenshots:

- ♣ To make a screenshot you press the *Windows* button with the *PrntScr* at the same time.
- ♣ If your picture doesn't fit on the screen you can choose *file* and *print preview* and *fit to page* to get a better fit.
